The BRIGHTER...EASIER To Work Amalgam . . .

EXCLUSIVE INFRA-RED ANNEALING PROCESS GIVES SMOOTHER TEXTURE AND BETTER CARVING QUALITIES

Also available
in 6 Grain
Nuggets

CORRECT AMALGAMATION

Creamier texture and correct amalgamation is achieved because Lang's exclusive annealing process removes all surface oxides, thus enabling mercury to take faster hold. Lang's White Beauty gives you very permanent and almost impossible-to-chip fillings. You will marvel at the lustrous silvery white finish produced by so little polishing. Its lustrous finish is retained indefinitely in any mouth where gold does not discolor. Available in both regular and fine cut mesh. Ask your dealer for our 12 ounce BONUS carton. (You get 12 oz. for the price of 10 oz.)

WHITE BEAUTY ALLOY

Certified to A. D. A. specification No. 1

Lang Dental Manufacturing Co., Chicago 13, Ill.

If You Use an AIROTOR, These Two Are Essentials!!!

1. **TURBOFIX** Removing the bur from the handpiece head can often cause damage to both the plastic chuck and turbine. The **TURBOFIX** affords complete protection and also saves time. One push is sufficient to expel the bur concentrically and accurately. For S. S. White, Ritter and Densco Air Handpieces. **PRICE — \$4.80**

2. **LINGUFIX** eliminates tongue injuries . . . The **LINGUFIX** is attached to the head of the airtor handpiece. This will effectively keep the patient's tongue away from the bur or grinding wheel while working on the lower jaw. For S. S. White, Ritter, Midwest and Densco Air Handpieces.

PRICE — set of 2 \$7.00
